

HIMANSHU KUMAR

+91-7970686221 | webuxhimanshu@gmail.com | [portfolio](#) | [LinkedIn](#) | [Github](#)

EDUCATION

- **Dr. A. P. J Abdul Kalam Technical University, Lucknow**
Bachelor of Science in Computer Science

2022 - 2026

EXPERIENCE

- **Software Development Intern | AICL | [--certificate](#)**
 - Led the end-to-end frontend development for the BnW Website project, working as the sole Frontend Developer. Successfully built the frontend from scratch based on Figma UI design, leveraging NEXT.JS for seamless user interactions.
 - Contributed to the development of the Christie's Website project in a collaborative team of three frontend developers.
 - Introduced various user-centric features, including mobile responsiveness for diverse screen dimensions, a robust search functionality enabling quick content/item retrieval, and integration of external APIs using Axios

PROJECTS

- **BlinkMe - Blinkit Clone | [GitHub](#) | [--demo](#)**
 - Technology Used : **React Native**, **Express.js**, Node.js, **Zustand**, **Socket.IO**, MongoDB, REST APIs, **Admin Dashboard**, Google Maps API
 - Built a full-stack grocery delivery application with separate apps for customers and delivery partners, ensuring a seamless and robust user experience.
 - Implemented real-time order tracking and live location updates using Socket.IO and Google Maps API.
 - Designed and developed an admin dashboard to manage inventory, track orders, and monitor delivery operations.
 - Focused on performance optimization and real-time communication, enabling quick updates between client, delivery partner, and admin systems.
- **Valorant Act 2025 - Interactive Landing Page | [--Live](#)**
 - Technology Used: **Next.js**, Tailwind CSS, **GSAP**, Framer Motion
 - Built a fully responsive landing page for Valorant Act 2025 featuring a cinematic website loader, reveal animations, and smooth scroll-based animations
 - Showcased trailer integration, upcoming skins, events, and updates, providing players with a hub for Act 2025 content.
 - Optimized for cross-device performance ensuring fast load times and responsiveness across desktop and mobile.
- **K-Cart - E-Commerce Mobile App | [GitHub](#) | [--demo](#)**
 - Technology Used : **React Native**, Node.js, **Express**, **Redux-Saga**, **MongoDB**, **Rive**, REST APIs, Admin Dashboard, **Payment Gateway**
 - Developed a full-stack e-commerce mobile application for trending clothes with separate customer app and admin dashboard.
 - Implemented secure payment gateway for seamless checkout and order management.
 - Built a custom animated splash screen using **Rive** and integrated smooth, responsive UI for an engaging shopping experience.
 - Designed the admin dashboard to manage products, orders, and user activity, enabling end-to-end control of the platform.

TECHNICAL SKILLS

- **Areas of Interest :** FULLSTACK DEVELOPMENT , **FRONTEND** DEVELOPMENT , MOTION DESIGN , WEB UX ,DSA
- **Languages:** C++, HTML, CSS, TAILWIND , JAVASCRIPT , TYPESCRIPT
- **Framework:** React , next.js , Node , Express , reactnative , fastify , Mongoose , Prisma , sql , Docker , Git , Github
reduxSaga , rive , three.js , gsap , Zustand

ACHIEVEMENTS

- Built and deployed 14+ full-stack projects using React, Next.js, and React Native, covering domains like e-commerce, real-time apps , SaaS dashboards , landing page, leveraging MVC architecture
- Contributed to open-source by publishing projects on GitHub with 100+ stars across repositories
- Developed the web application of an e-commerce platform connecting customers with vendors offering customization merchandise (e.g., T-shirts, mugs), leading to a 25% increase in vendor sales.
